

**STRENGTHENING CHILD HEALTH AND
REDUCING INFANT MORTALITY RATES**

GLO Uganda Mission Trip Fall 2017

– (November / December 2017)

**GUIDING
LIGHT
ORPHANS**

Purpose of the Mission Trip

1. Christine's Journey of Hope & Triumph
2. Monthly Epilepsy Outreach Clinics
3. Health Clinic Furnishing and Outfitting
4. Prenatal Care and Immunization
Outreach

Christine- Born with severe spina bifida Her Progress So Far

Starting out from
crawling on the ground
into a wheelchair,

Christine soon learned to
walk with assistance
**And is now able to
walk by herself.**

With the excellent support from her caregivers,

She gets to do things she loves like **Writing!**

Meet Joseph

Thirteen year old Joseph (left) suffers from **epilepsy** and his school had removed him based on the statements that he was scaring other students due to his **seizure episodes**. They were frequent and would happen almost **5 times a day**.

GLO stepped in to help Joseph improve his condition. It has been **2 years** since Joseph has been receiving medical care and thus his seizures have **significantly improved and is doing well in school**.

Nyantanzi and Kasenene Monthly Epilepsy Outreach Clinics

Average number of patients counseled and treated: **221**

Over **85%** of patients are seizure free and doing remarkably well

No seizures during the outreach
